

RED FOR ED

Friday, March 28th

Solidarity for Public Education!

Across the globe public education is under threat. Just south of the border we are watching as the President dismantles the Department of Education. This means cuts to special education, cuts to students living in poverty, cuts to college and training program funding, cuts to childcare and MLL programs.

As we face threats to our economy, and our sovereignty, we know that public education is the best investment. Let's stand together on Friday, March 28th, 2025.
